

# Carbon Reduction Plan for Sol Komfort Interiors

## Introduction

This Carbon Reduction Plan outlines Sol Komfort Interiors' commitment to reducing carbon emissions in compliance with PPN 06/21. Our objective is to establish a clear framework for sustainable practices across our operations, aligning with national targets for carbon neutrality.

---

## 1. Organizational Commitment

- Leadership Engagement: Our leadership team is committed to driving sustainability initiatives, ensuring that carbon reduction is integrated into our business strategy.
- Employee Involvement: We will engage all employees through training and awareness programs to foster a culture of sustainability.

---

## 2. Carbon Emission Baseline

- Current Emissions Assessment: Conduct a comprehensive audit to assess our current carbon footprint, including scope 1, 2, and relevant scope 3 emissions (such as supply chain and product lifecycle emissions).

---

## 3. Reduction Targets

- Short-term Goal: Achieve a 20% reduction in carbon emissions by 2025, based on our baseline assessment.
- Long-term Goal: Aim for net-zero emissions by 2035.

---

## 4. Strategies for Reduction

- Energy Efficiency:
  - Upgrade office and operational equipment to energy-efficient models.
  - Implement smart building technologies to monitor and optimize energy use.
- Sustainable Sourcing:
  - Prioritize suppliers and materials that demonstrate sustainability and low-carbon practices.
  - Utilize recycled and eco-friendly materials in our product offerings.
- Waste Reduction:
  - Implement a comprehensive waste management strategy focusing on reducing, reusing, and recycling materials.
  - Set targets to minimize landfill contributions by 50% by 2025.

- Transportation:

- Promote remote work and flexible hours to reduce commuting emissions.
- Encourage the use of public transport and carpooling among employees.

---

## **5. Monitoring and Reporting**

- Annual Reviews: Conduct yearly assessments of carbon emissions and progress towards reduction targets.
- Public Reporting: Publish an annual sustainability report detailing our carbon reduction efforts and achievements.

---

## **6. Engagement and Collaboration**

- Stakeholder Engagement: Collaborate with clients, suppliers, and local communities to promote sustainability initiatives.
- Industry Partnerships: Join relevant industry organizations focused on carbon reduction and sustainability.

---

## **7. Compliance and Adaptation**

- Regulatory Compliance\*\*: Ensure all practices comply with relevant regulations and standards.
- Continuous Improvement\*\*: Regularly update the carbon reduction plan based on new technologies, practices, and feedback.

---

## **Conclusion**

Sol Komfort Interiors is dedicated to creating a sustainable future through actionable carbon reduction strategies. By implementing this plan, we aim not only to comply with PPN 06/21 but also to lead by example in our industry.
